

# AFoPS Webinar: Opportunities and Capacity Building

In conjunction with the 9<sup>th</sup> Malaysian International Seminar on Antarctica (MISA9), followed by the Annual General Meeting of the Asian Forum for Polar Sciences (AFoPS), which will be held on the week of 25<sup>th</sup> to 29<sup>th</sup> October 2021, the secretariat is planning to host a webinar on opportunities and capacity building especially for the advancement of the early career scientist. This webinar, planned as the online sharing session is to introduce the available opportunities and capacity building, i.e., fellowship, scholarship, training, visiting scientist program and any collaboration.
